1. The following is an examiner's statement of reasons for allowance:

Regarding claims 8 and 15 the prior art of record does not teach or suggest alone or in combination, the combination of elements especially the opposing inward faces of the arm support means **defining the card insertion space**.

The best art of record in the case is previously cited Chang. Chang teaches arm support pieces with inward opposing faces (522 & 542). However, these inward opposing faces do not define the card insertion space. These faces help define the floor of the card insertion space; see figures 2 and 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
